ORCHID LIST
OCTOBER 2009

These plants are adults, unflowered seedlings or unflowered mericlones and in most cases there is only one clone. Sympodial plants are usually offered as bare root, adult, 3 bulb or more, front divisions and with the expectation of flowering on the next growth, or as listed, as single bulbs. Monopodial plants are offered as cuttings or the whole plant. **Please write for availability and prices.**

If you have any **Spathoglottis**, **Sobralia**, **Calanthe** or **Phaius** that you don't see on this list please let me know - maybe we can do some horse trading, buying, stealing?

AERANTHES

grandiflora species

BLETIA

catenulata species
 patula species

BRASSIA

Edvah Goo longissima x giroudiana

BRASSOCATTLEYA (Brassavola x Cattleya)

Bride's Blush 'Kaaawa' C claesiana x speciosa
 Bride's Rouge 'Kaaawa' Bride's Blush x speciosa
